Brisa Retractable Screen Door: Tensioning Instructions

Step 1:  Remove BRISA unit from door frame (wood screw x4)

Step 2:  Disconnect tracks from screen housing

Step 3:  Place screen housing on long flat surface (TIP: Place rug under screen housing to protect paint)

Step 4:  Remove the "patent pending" end cap from the screen housing. If you are unable to locate the "patent pending" end cap, please call ODL Customer Service for assistance (866-635-4968).

Step 5:  Slide off the end cap (CAUTION: Some movement and noise from spring unwinding may occur)

Step 6:  Pull spring assembly out of the barrel and check that the coil is still wrapped around the white plastic piece at both ends.
**Brisa Retractable Screen Door: Tensioning Instructions**

Step 7: Slide end cap back on square rod of spring assembly and hold components together

Step 8: Rotate end cap clockwise for desired tension (TIP: suggested tension is 27 revolutions starting with no tension)

Step 9: Align the half-moon shaped details on the white spring end cap with the barrel half-moon details and reinsert spring assembly and end cap to screen housing
